Technical Seminar; Fabric Covering

Day two of the fabric covering seminar was held on May 17. The following six attendees were present for the hands-on session. They were Stuart Deal, Mike Fenn, Glenn Hetchler, Duncan Reed and Jim DuVander from 124, and Bryan Lee from PCAM. Thanks goes to Jim for supplying the tail feathers and an aileron from his Champ project for our use during the class. In addition, I want to extend a special thanks to Remo Galeazzi for helping me run the class and sharing his vast experience and knowledge with all of us. I could not have completed the class to this degree without his succor.

What's next? We have done a welding and a fabric covering seminar; that leaves metal forming, wood construction and fiberglass as other skills to explore for our prospective builders. If you will let me know what you would like to do next, I'll see what I can do about pulling it together for the fall.
